<b>Content</b>	<p>This SSM has been published to highlight the differences between the rear spoiler operation of a F-Type convertible and a F-Type coupe to avoid a misdiagnosis.</p> <p>Please review the proper operation modes in either the Workshop Manual or the Owner Handbook on TOPIx before trying to diagnose a perceived system fault.</p> <p>For Coupe models, there is no manual operation using the console button once the engine is started. The spoiler may be manually deployed and retracted with ignition on, engine off to facilitate vehicle cleaning.</p>
